Im really just curious about a couple of things Speaker impedance, just sos I dont do anything silly with it. Very grateful for any info, or pointers. cheers. Im really just curious about a couple of things Speaker impedance, just sos I dont do anything silly with it. I had a look around on the web too, and as you say there is nothing. I guess your best bet is to give it a shot with some 8 ohm cabs to be on the safe side. Slave sockets will be inputs or outputs to either use the power amp in the Carlsbro or to allow you to use additional power amps running from it. Perhaps one is an input and the other an output. Theyll be line level in both cases, which means that if you start all the levels at zero you shouldnt risk anything by trial and erroring, say, putting an mp3 player into each and seeing whether you get an output from the Carlsbro. Alternatively, and this is what Id do, ignore the slave sockets and just use it as cheap vocal PA as you suggest. It may well be happy with 4 ohm cabs. Is there no dire imprecation by the speaker outputs. If itll throw a fit at less than 8 ohms theres a good chance that the sockets will be labelled to say so. Sorry not to be more help. Im really surprised that there isnt more info out there given how common these things were back in the day. There are no markings on it regarding speaker impedance, but it seems to have survived with no apparent damage done, and it was plenty loud enough for what we want it for basically just a couple of vocal mics, possibly one on the kickdrum. As you suggest, I think Ill ignore the slave outputs. I was curious as much as anything. I was though, like you, rather surprised at the lack of info out there. Thanks for your thoughts. The manual that came with it is different to the machine i have in that the effects buttons are different i.e 3 dials on mine and 3 buttons on the manual.Many thanksAlso there could be a problem with the bridge rectifier, possible that theres 1 or more diodes defect. Any technician can repair that. Hope it helps, Gerard If may not have enough to input your Carlsbro PA Set the mains and the channel volume to a lowreasonable level and plug in a play. If the input is distorting, you need to use a lower input level. If its too quiet, you need to use a higher input level. Login to post Set the mains and the channel volume to a lowreasonable level and plug in a play. Effects and mixer are a line level output and the mixer can be considered a line level input as well. A mic mixer has gain amplifiers for the inputs that are below line level such as unamplified microphones. It is possible to parse to absurdity, but the gist of it is above assuming you do not want to apply the same effects to everything all at once.If may not have enough to input your Carlsbro PAOne must setup the mixer correctly. Critical things are the trim controls and faders. Your faders should be near the unity setting when adjusted. Setting the EQa ia important and if you are stereo usage, setting the pan control can be important.Answer questions, earn points and help others. Neither the Auctioneer nor the Seller shall be liable for any loss or damage whether caused by negligence or otherwise of either or both or of their servants or agents and without prejudice to the generality of the foregoing neither the Auctioneer nor the Seller shall be liable for any loss of profit, business or production or similar or other loss whether direct or indirect or consequential, however caused. In the circumstances any potential Buyer should rely solely and exclusively upon his own inspection of any lot and should not treat statements made in sale particulars or before or during the auction by the Seller or Auctioneer either as representations or to be relied upon. Upon production of a Bill of Lading the VAT on the hammer price will be refunded. The VAT on the Buyer's Premium will not be refunded. Proof of export must be provided within three months from the date of sale. However, we do not accept liability for bids placed either over the telephone or via the internet, or for any breakdown in communications due to the failure of telephones or the internet which may lead to a prospective bidder not being able to place bids. No variation of such Conditions shall be valid unless made in writing and signed by a person duly authorised by the Auctioneer. By making a bid for any lot the person making the bid warrants that he has read, makes his bid upon and agrees to be bound by these Conditions. He further warrants that he has due authority and capacity to make the bids and binds himself and any employer or principal to honour any contract resulting therefrom. Any bid shall be deemed to be an offer by the Buyer which term shall include the bidder and any principal or employee of the bidder to purchase any lot tendered upon these Conditions alone.

The sale of any lot shall be concluded and binding at the moment when the lot is knocked down. The highest bid will be accepted save in exceptional circumstances, such circumstances to be determined by the Auctioneer whose decision shall be unchallengeable. No person may advance less at a bid than the sum to be named from time to time by the Auctioneer. The Auctioneer reserves the right to refuse any prospective Purchaser a bidding number and to refuse to accept bids from any

party not having an official bidding number. No Purchaser shall have the right to avail himself of any setoff or other plea for non-payment of his purchase money against the Auctioneer or his principals, but he shall be liable to the Auctioneer for any unpaid purchase money whether the lots bought have been delivered up or not. Payment is to be in a form agreeable to the Auctioneer and shall not be deemed to have occurred until any negotiable instrument has been honoured in full. Should payment not be received within this time limit the Auctioneer reserves the right to charge interest at the rate of 15% per annum until payment of the outstanding balance, and to bring into operation the remedies reserved under Condition 6. Time of payment shall be deemed to be of the essence. In default of payment the Auctioneer shall have a lien on all the lots purchased by the Buyer and to forfeit any deposit paid whether described as refundable or not. The Auctioneer shall also have the right to immediately resell the goods at his sole discretion whether by auction or private treaty without any right of compensation in the Buyer. This Condition however is without prejudice to the right of the Auctioneer to enforce the Contract made at this sale if he thinks fit and the duly verified computer sales entry shall be deemed to be full and sufficient evidence of such Contract and binding alike upon Seller and Buyer upon written certification by the Auctioneer presiding.

The Buyer shall be responsible for the removal of the articles and such removal must be carried out safely and lawfully. Flame cutting, the use of explosives or of any other potentially hazardous or inflammatory process shall not be permissible at the site without express written consent. The Buyer agrees to insure against and to indemnify the Auctioneer and the Seller against any and all claims arising in respect of injury or damage to person or property, whether real or personal, caused by or in connection with the acts or omissions of the Buyer, whether caused by himself, his servants or agents or his principles or employer. Neither the Auctioneer nor the Seller will be bound by or liable for any representation of any kind whatsoever, whensoever or howsoever made. Neither the Auctioneer nor the Seller shall be liable for any loss or damage whether caused by negligence or otherwise of either or both or of their servants or agents and without prejudice to the generality of the foregoing neither the Auctioneer nor the Seller shall be liable for any loss of profit, business or production or similar or other loss whether direct or indirect or consequential, however caused. Sale of Goods Act 1893 Section 55 7 and Unfair Contract Terms Act 1977 Section 12 2. The Auctioneer, his servants or agents have no authority to make representations. In all cases the Auctioneer's assessment of such loss or damage shall be final and unchallengeable and the Buyer undertakes to pay the assessed sum upon receipt of invoice, time being of the essence. By the making of a bid the Buyer acknowledges acceptance of these conditions and accepts neither the Auctioneer nor the Vendor will be responsible or accept any liability for any accident to life, limb or property which may occur prior to or during the progress of the sale or at any time during the removal of the lots which must be entirely at the Purchaser's risk.

Utilized Yet at the same time As a part of GOOD COND. It was a second generation design based on the Marlin 1042, which provided portable PA facility. The Marlin 150 PA was capable of delivering 150watts power into a 4.

The following pages also show the loudspeaker range that was available, and how to connect them to this amplifier. If you manage to acquire one of these in the preused market, and do not have a manual, then this article and the following pages might help shed some light. These are complicated to repair and the electronics parts not readily available, hence a burnt out amp would not be worth much. It has recently been tested and all works as it should and it comes with the power lead fitted with a standard three pin UK plug.
